

Please uphold the rights of New Jersey citizens to have a 'Do Not Call' list. I feel that unsolicited telephone calls made to my home are an invasion of my privacy. I do not invite these person to call me. They do have a right to find customers, they have a right to run their businesses. They do not have a right to enter my home, UNINVITED, via the telephone service that I pay for. When I shop for items or services I make the choice of when and where to shop. Telephone solicitors, by their intrusive methods, are attempting to make that choice for me. Let them contact those who will allow it, those who are not on the 'Do Not Call List'. I lock my doors to keep out the uninvited, please let me 'lock' my phone number to keep them out as well.

Respectfully

Jane Martin
